TruBio: The Eco-Conscious Choice in Trash Can Liners

TruBio™ liners are built to handle medical and hazardous waste safely and reliably. Durable, leak-resistant, and eco-friendly, they help healthcare facilities meet compliance and sustainability goals without compromising performance.

TruBio's ECOgrade Solution

- **Made with ECOgrade resin:** a complex unitized polymeric material containing 80% natural materials
- **Fully photodegradable:** Degrades within 240 days of sun exposure per ASTM D5272
- **Recyclable:** Compatible with regular plastic recycling and municipal waste systems
- **Lower carbon footprint:** Removes 30% of plastic compared to traditional can liners
- **A Noramco exclusive:** TruBio liners are manufactured in the United States by Noramco, using a proprietary process.

ECO-Friendly AND ECONOMICAL

TruBio can liners feature Noramco's signature TruFit™ design, allowing them to stretch and fit the four most common receptacle sizes including 32-, 44-, 55-, and 56-gallon cans.

- Less waste from oversized bags
- Lower costs with fewer bag SKUs to stock

Demonstrate your commitment to sustainability—and help customers make cleanup more efficient—by adding TruBio bags to your waste-management supply offering.
