## Sturdy, Long-Lasting Trash Can Liners Reduce Costs

**Noramco's high-performance trash can liner bags help JanSan professionals cut waste-management costs while maintaining cleaner, more efficient facilities.**

### Built for Demanding Environments

- **Tear & puncture resistant:** HDPE and LLDPE materials withstand rough handling and heavy loads.
- **Leak-proof protection:** Reduces messes and cleanup time in high-traffic areas
- **Handles sharp and heavy waste:** Delivers reliable performance for commercial, industrial, and institutional settings

### Smarter Fit, Fewer Bags Needed

- **Increased capacity:** Holds more waste per liner, reducing the need for frequent replacements
- **Versatile & multi-use:** One bag works across multiple applications, simplifying inventory management.
- **TruFit Series:** Designed to stretch and fit the four most common receptacle sizes, reducing excess stock

### Cost-Effective & Storage-Saving Liners

- **Fewer styles, more efficiency:** Save money by stocking only the essentials
- **Stronger bags, fewer replacements:** Maximize savings over time
- **Reliable performance, lower maintenance costs:** Spend less time dealing with bag failures

Noramco helps JanSan teams work smarter—not harder—with durable, high-capacity liners designed to handle tough cleaning demands while keeping operations efficient and cost effective.

**Specialty offering:  
Custom color matching**

**Understanding the difference between HDPE and LLDPE can liners can mean paying only for what you need versus paying extra for what you don't.**

These two plastics have different density and flexibility.

### HDPE (High-Density Polyethylene):

Denser and more rigid

**Recommended Usage:** Applications requiring high strength and stiffness; resistant to most alcohols, acids, and alkalis.

### LLDPE (Linear Low-Density Polyethylene):

More flexible

**Recommended Usage:** Ideal for applications needing flexibility and stretch; resistant to most alcohols, acids, and alkalis.

HDPE and LLDPE product options include coreless rolls and folded/boxed liners in black, white, and clear—available also in TruBio, Noramco's photodegradable product line.

Sturdy, Long-Lasting Trash Can Liners Reduce Costs

**At Noramco, our goal is to be an easy partner that readily addresses your JanSan needs. From our easy sizing guides to our customer-centric sales team to our new Noramco Partner Program, we've got you covered!**

## Janitorial and Sanitation Features and Benefits

**We have bags to fit every trash can.**

Common sizing for our most popular liners

**We manufacture can liners that fit your needs.**

- **LLDPE:** Flexible and tough
- **HDPE:** Suitable for rigid waste
- **Recycled Series:** Uses less virgin plastics
- **TruBio (fully photodegradable):** Degrades in 240 days; reduces carbon footprint; lower carbon emissions when incinerated

## High-Quality Customer Service

**Supporting you with what you need, and not what you don't.**

- Experienced and committed team
- Precision and quality assurance
- Streamlined processes for consistency
- Customer-centric approach
- Reliability you can trust
