Small Enough to Care.

Big Enough to Serve.

Who We Are

Manufacturers of High Quality Polyethylene Can Liners and Plastic Bags

Our Company

- Founded by James Popela
- Serving the can liner needs of distributors since 1986
- Committed to providing a rewarding work environment for our employees

Our Focus

- We strive to provide our customers with quality and cost-competitive products
- We adapt to our customers' needs and build lasting partnerships
- We exceed customers' expectations through support and service

Our Values

- Safe work environment
- Highest quality raw materials and quality standards
- Continuous improvements in the production process
- Passion for our business

How to Shop Our Catalog

Here's what you need to know

We take pride in offering a full product line for any application. From high density and linear low density trash liners, to poly food bags, biodegradable liners, and custom products, we offer a wide variety to satisfy even the most demanding needs of our customers.

Our Products Overview

- Commercial Can Liners
- Drum Liners
- Box Liners
- Gaylord Liners
- Pallet Covers
- Poly Food Bags
- Bun Rack Covers
- Contractor Bags
- Medical Bags
- Biodegradable Can Liners
- Tubing
- CF Sheeting
- And More!

1

Identify Resin by Your Application

	Linear Low Density LLD	High Density HD
Resin Type	Recommended for sharp or rough objects. Offer great stretch and tear resistance.	Recommended for heavy, non-sharp objects. Offer significant material and cost savings.
Application	Yard clean up, glass, objects with rough edges. Plastic eating utensils, food scraps with sharp edges. Used in multiple applications (medical bags, contractor bags, food bags, etc.)	Paper plates, cups, paper, office waste. Heavy objects with non-sharp edges.
Stock Categories	ST Series, PGB Series, T Series, Food Bags, Medical Bags, CoEx Bags	R Series, CSR Series, RCH Series

2

Measure: Size and Thickness

Can Liner Formula

Linear Low Density

Length x Width x Gauge (in mils) ÷ 15 ÷ 1000 x bags per case = case weight

High Density

Length x Width x Gauge (in microns) ÷ 15 ÷ 25.4 ÷ 1000 x bags per case = case weight

Microns to Mils Formula

Divide the microns by 25.4 to arrive at mil thickness.

Mils to Microns Formula

Multiply the mils by 25.4 to arrive at mic thickness.

Mil Thickness	.23	.27	.31	.35	.39	.43	.47	.51	.55	.59	.62	.66	.70	.74	.78	.82	.86	.90	.94	.98	1.00
Micron Equivalent	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	25.4

■ Measure Your Container for Best Fitting Liner*

Square container:

Measure all 4 sides

Measure the base diagonal

Measure the vertical length

Round container:

Measure the base and top diameters

Measure the vertical length

■ Calculate the Liner Size

Square container:

Liner width = sum of all 4 sides ÷ 2

Liner length = container length + (base diagonal ÷ 2) + 4

Round container:

Liner width = (top diameter x 3.14) ÷ 2

Liner length = container length + (base diameter ÷ 2) + 4

*This formula builds in overhang
Measurement in inches

■ **With these dimensions,** you are ready to choose the right bag width/length.

3

Confirm Container Usage

Find the product line that best matches your needs and container size.

Noramco's extensive line of products has every application covered!

Our Commitment

Customer Support Our team of dedicated inside sales specialists and regional representatives will ensure you get the support and coverage you need.

Flexibility We take pride in meeting our customers' unique needs. We offer low minimums and quick turnaround.

Stability As a privately owned company, we cut red tape and remain a reliable supplier to regional and national distributors.

Sustainability We are proud to offer a variety of commercial can liners that are certified for recycled content, in addition to a full line of biodegradable trash bags. Let's be smart about recycling and reducing waste.

Education It's not rocket science, but there are some fundamentals in selling trash bags and increasing your profits. Let us help you be the expert!

Though we have grown over the years, we have never forgotten our humble beginnings. We invest heavily into improving our service and production process, but still maintain our headquarters at the building where James Popela started some 30 years ago.

**Wide Variety.
National Support.**

Ordering

- Special runs available with 1,200 lb minimum per SKU
- Average lead time is 10-14 days on stock items, and may be longer for custom items
- Orders are preferred in multiples of seven for better pallet configuration
- HDPE liners are on coreless mini rolls: Some can be folded, but minimum and price adjustments apply
- LLDPE and Repro can be folded or coreless
- EDI Compliant
- 250 case minimum for prepaid freight
- Private Label Opportunities

Box and pallet information

- Virgin HDPE and LLDPE liners are packed in a plain white box
- Repro and Biodegradable liners are packed in a brown "earth-friendly" box
- Boxes are stacked seven per layer
- All pallets are shrink wrapped
- Wrap-around labels available upon request
- All labels are visible from the outside

Terms and conditions

- Invoices that are not paid 31 days after the original invoice date (except for special terms) are subject to service charges of 1% per month (12% per year).
- Specials and/or custom orders are non-returnable except for damaged or defective products.
- Prices are subject to change without notice.
- North American Plastics reserves the right to reject any order.
- Consult your sales rep or call us for more information.

TruBio Can Liners

Better Products for a Better Future

TruBio Series bags are our more eco-friendly liners designed to fit and stretch among the four most common receptacle sizes. Save time, money, and be more socially responsible, by buying only what you need and not spending extra on what you don't.

TruBio's ECOgrade Solution:

- **ECOgrade resin** – a unitized complex polymeric material containing 80% natural materials
- **Fully photodegradable** – Degrades within 240 days of sun exposure per ASTM D 5272
- **Recyclable** – Compatible with regular plastic recycling and municipal waste systems
- **Lower carbon footprint** – Removes 30% of plastic compared to traditional can liners
- **A Noramco exclusive** – TruBio liners are manufactured in the U.S. by Noramco, using a proprietary process

ECO-friendly AND ECONomical

TruBio can liners feature Noramco's signature TruFit™ design, allowing them to stretch and fit the four most common receptacle sizes including 32-, 44-, 55-, and 56-gallon cans.

- Less waste from oversized bags
- Lower costs with fewer bag SKUs to stock

Demonstrate your commitment to sustainability – and help customers make cleanup more efficient – by adding TruBio bags to your waste-management supply offering.

Sustainable Products for Your Sustainability Initiatives

Right Fit

All you need to know is GALLON SIZE when selecting the right liners with TruBio series.

Correct length → **Proper overhang** →

TruBio Can Liners

Right fit • High durability • Lower carbon footprint

We offer a variety of eco-friendly liners, including:

- **Recycled Series:** strong and durable; uses less virgin plastics, reducing costs; certified for recycled content
- **TruBio:** Made with ECOgrade resin, a unitized complex polymeric material containing 80% natural materials

TruBio liners are available in clear, black, and green in the following capacities:

Contractor Bags

These bags are ideal for contractors who rely on quality. We guarantee they will hold the toughest trash. They are made with a blend of recycled resin and high-quality virgin materials to offer superior strength and stretch. They are also ideal for landscapers, building service contractors, and others who need more than a regular can liner.

42 Gallon Capacity (158l)

3 Mil Thickness (76.2pm)

2'9" x 4' (83.8cm x 1.21m)

- ▶ Proven quality and strength backed by three decades in the plastics business
- ▶ Heavy 3 mil thickness for the toughest applications
- ▶ Maximum tear and puncture resistance
- ▶ Ideal for heavy and sharp objects
- ▶ Eco-friendly and made from a blend of recycled and prime resins
- ▶ Available in 20-bag or 32-bag cases
- ▶ Twist ties included

TUFF20 and Tuff32 Contractor Bags

Product Features

- Proven quality and strength backed by three decades in the plastics business
- Heavy 3 mil thickness for the toughest applications
- Maximum tear and puncture resistance
- Ideal for heavy and sharp objects
- Made from blend of recycled and prime resins
- 20 bags or 32 bags per case
- Twist ties included
- 42 gallon capacity
- Dimensions: 2'9" x 4'

TRUFIT series

Taking the guesswork out of can liner sizes

TruFit Series bags are designed to fit and stretch among the four most common receptacle sizes. Save time and money buying only what you need and not spending extra on unneeded plastic. Our liners are offered in a variety of resins—LLDPE, HDPE, and REPRO options—all high-quality plastic with a slip-free fit.

All you need to know is gallon size when selecting the right liners with TRUFIT SERIES:

Correct Length = Proper Overhang = Less Waste

COLORS

Natural
Clear
Black

LLDPE

Great for heavy duty
and sharp material

HDPE

Great for high volumes
(paper, linens, and
office materials)

REPRO

Performs like LLDPE

TRUFIT SIZING:

23 Gallon Container

- TruFit Series Size: 29" x 44"
- **Competitors:** 33" x 39" (13% wasted)
- 40" x 46" (45% wasted)
- 38" x 58" (74% wasted)

32 Gallon Container

- TruFit Series Size: 33" x 44"
- **Competitors:** 40" x 46" (26% wasted)
- 38" x 58" (50% wasted)

44 Gallon Container

- TruFit Series Size: 37" x 50"
- **Competitors:** 38" x 58" (18% wasted)

55 Gallon Container

- TruFit Series Size: 41" x 54"

NEW! 65 Gallon Container

- TruFit Series Size: 50" x 44"

BENEFITS:

- No more wasted plastic
- No more paying for what you don't need
- Line receptacles more efficiently and more cost effectively
- Packed on coreless rolls for easy dispensing

Manufactured of high-quality polyethylene can liners and plastic bags

TruFit Series

Product Features

- No more wasted plastic
- No more paying for what you don't need
- Offered in LLDPE, HDPE, and REPO

Premium LLD Product Series

Industrial | Restaurant | Hospitality | Schools | Large Venues

Product Features

- Made with prime resins
- Superior tear and puncture resistance
- Leak-proof star seal
- Packed on coreless rolls or individually folded
- Ideal for multiple applications where clear bags are needed
- Available in clear, black, and white

Coreless roll

Individually folded

Bag Color: C = Clear, W = White, B = Black
Case Put Up: C = Coreless, F = Folded

Premium LLD

Competitor HDPE Series

Product Features

- Made in the USA
- Nominal high density product that matches industry standard tolerances on gauge and size to compete with imports
- Premium HDPE resins and HDPE film offers significant source reduction and excellent odor and moisture barrier properties
- Star seal provides extra durability

N = Natural is clear in color, ideal for foodservice applications | K = Khaki is semi-transparent natural color
B = Black is good for hiding contents and affordability

Bottom Seals

Most stock products have Star Seal, which offers the strongest support and leak resistance. Heavy duty or specialty custom products can be made with Gusset or Flat Seal.

High Performance Star Seal

- Most common type
- Eliminates gaps where leaks can occur
- Distributes weight evenly
- Maximizes carrying capacity
- Sized in two dimensions
Example: 38 x 58

Flat Seal

- Potential to leak liquids from the corners
- Do not conform as well to the shape of can
- Sized in two dimensions
Example: 38 x 58

Gusset Seal

- Flat-style bag design
- Both sides tucked in to form gussets
 - Sealed through four layers of film (the middle of the bag has only two sealed layers)
 - Sized in three dimensions
Example: 23 x 17 x 46

Manufacturers of quality can liners and custom packaging

We are one of the last privately owned companies that offers a large selection of HDPE and LLDPE products, all of which are proudly manufactured in the United States.
